Piedmont goes west with health care

Piedmont Hospital held the grand opening of its Piedmont West mixed-use medical office park Jan. 29. Located at the northwestern corner of Howell Mill Road and I-75, the development is meant to give patients more convenient access to services and alleviate congestion around Piedmont's main campus in Buckhead. The 255,000-square-foot office building includes more than 9,000 feet of retail space and is approximately 50 percent pre-leased. Shown at the community celebration of the opening are (from left) Robert Simmons, vice president of ambulatory campus for Piedmont Hospital; Gregory Hurst, executive vice president and chief operating officer of Piedmont Healthcare; and Scott Taylor, president of commercial real estate firm Carter, which developed Piedmont West with the hospital company.
